

# Ninth International Fermi Symposium

## Saturday 17 April 2021

### Exploring the Cosmos: AGN-3: Parallel-14 (15:00 - 16:30)

-Conveners: Andrew Chen

time	[id] title	presenter
15:00	[121] Investigating the radio and high-energy connection in a sample of gamma-ray emitting radio-loud AGN	ORIENTI, Monica
15:15	[122] Gamma-ray bright AGN: a decade of joint MOJAVE-Fermi monitoring	KRAMARENKO, Ivan
15:30	[123] Gamma-ray observations of low-luminosity AGNs	DE MENEZES, Raniere
15:45	[124] Locating the gamma-ray emission in Flat Spectrum Radio Quasars	ACHARYYA, Atreya
16:00	[125] Modeling the Spectral Energy Distributions and Spectropolarimetry of Blazars	SCHUTTE, Hester
16:15	[126] Monte-Carlo Simulations of Compton Polarization for Blazars	DREYER, Lente
