

Session Program

Apr 12 - 17, 2021

Ninth International Fermi Symposium

Exploring the Cosmos: AGN-3

Sat, April 17

3:00 PM

Exploring the Cosmos: AGN-3: Parallel-14

Session | Convener: Andrew Chen

3:00 - 3:15 PM

Investigating the radio and high-energy connection in a sample of gamma-ray emitting radio-loud AGN

Speaker

Monica Orienti

3:15 - 3:30 PM

Gamma-ray bright AGN: a decade of joint MOJAVE-Fermi monitoring

Speaker

Ivan Kramarenko

3:30 - 3:45 PM

Gamma-ray observations of low-luminosity AGNs

Speaker

Raniere de Menezes

3:45 - 4:00 PM

Locating the gamma-ray emission in Flat Spectrum Radio Quasars

Speaker

Atreya Acharyya

4:00 - 4:15 PM

Modeling the Spectral Energy Distributions and Spectropolarimetry of Blazars

Speaker

Hester Schutte

4:15 - 4:30 PM

Monte-Carlo Simulations of Compton Polarization for Blazars

Speaker

Lente Dreyer

4:30 PM
