

Ninth International Fermi Symposium

Friday, April 16, 2021

AGN-3: Poster Session 11 (6:20 PM - 7:50 PM)

time	[id] title	presenter
6:20 PM	[316] Constraining the intergalactic magnetic field with Fermi-LAT observations of seven ultra-high-frequency peaked BL Lac sources.	BISSCHOFF, Brandon
6:26 PM	[317] Ultrahigh-energy cosmic-ray interactions as the origin of very high-energy gamma-rays from BL Lacertae objects	DAS, Saikat
6:29 PM	[318] X-ray luminosity function of FSRQ with BAT 105 month catalog and contribution to cosmic MeV gamma-ray background	FUKAZAWA, Yasushi
6:32 PM	[319] The first gamma-ray flare of the peculiar source PKS 2004-447	GOKUS, Andrea
6:35 PM	[320] Extragalactic Radio Background from Synchrotron Emission of Radio and Normal Galaxies	MOTHA, Nomthendeleko
6:38 PM	[321] Hadronic synchrotron mirror model for blazars- Application to 3C279	OBERHOLZER, Laenita
6:41 PM	[322] Measure the weighted cross correlation between GeV and MeV fluxes of Blazars	RANDU, Mithun
6:44 PM	[323] Characterizing long-term leptonic variability in blazars	THIERSEN, Hannes
6:47 PM	[324] Systematic physical characterization of the gamma-ray spectra of 2FHL blazars	VAN DEN BERG, Jacobus
6:50 PM	[325] The ablation of gas clouds by blazar jets and the long-lasting flare in CTA 102	MICHAEL, Zacharias
6:53 PM	[326] An association of a Fermi-LAT flaring activity with a blazar candidate behind the Large Magellanic Cloud	ZYWUCKA, Natalia
6:56 PM	[327] The Gamma-ray Emission of Ultra-Fast Outflows	AJELLO, Marco
6:59 PM	[328] Searching for misaligned active galactic nuclei among blazar candidates in the Fourth Fermi-LAT catalog	CHIARO, Graziano
7:02 PM	[329] Variability of the Mg II 2798 λ Emission Line during the 2017 Nonthermal Outburst in the Gamma-Ray Bright Quasar 1156+295	HALLUM, Melissa
7:05 PM	[330] Multiwavelength monitoring of gravitationally lensed blazar QSO B0218+357 between 2016 and 2020	LONGO, Francesco
7:08 PM	[331] Optical spectroscopic classification of a selection of Southern Hemisphere 3FHL unclassified blazar candidates	MARAIS, JP
7:11 PM	[332] Gamma-ray Emission from Molecular Outflows	MCDANIEL, Alex
7:14 PM	[333] Spectral analysis of S5 1803+784 BL Lacs Blazar	OMOJOLA, Joseph
7:17 PM	[334] Two-component model of gamma-ray emission for Fermi/LAT-blazars	PEI, Zhiyuan
7:20 PM	[335] The gamma-ray emission of young radio galaxies and quasars	PRINCIPE, Giacomo
7:23 PM	[336] Are we seeing magnetic reconnection generated gamma-ray flares in 3C 84	RANI, Bindu
7:26 PM	[337] Multi-wavelength study of large-scale outflows from the Circinus galaxy	EBRAHIM, Rozeena
