**EASITrain – European Advanced Superconductivity Innovation and Training.** This Marie Skłodowska Curie Action (MSCA) Innovative Training Networks (ITN) receives funding from the European Union's H2020 Framework Programme under grant agreement No. 764879.

# Closing Remarks

- We are today concluding **four successful years of EASITrain** activities
- We **started in October 2017** and managed in facing the difficulties of the COVID pandemic situations
- Our scope has been **pursuing innovation** in the field of accelerator technology while **training a new generation of motivated scientists** working on different aspects of accelerator technology:

Dorothea Fonnesu, Johannes Gnisen, Andrea Vitrano, Jakub Tkaczuk, Linn Kretzchmar, Aisha Saba, Paola Estefania, Mauceri Barrios, Dmitry Tikhonov, Jean-François Croteau, Vanessa Garcia Diaz, Sofiya Savelyeva, Alice Moros, Mattia Ortino, Stewart Leith, Maxime Podeur.  
**Nationalities:** Italian, Austrian, French, Pakistani, Venezuelan, Canadian, Polish, German, South African

**Accelerator technology is a complex multi-disciplinary field.** The understanding of the relation among academy, large laboratories and industry, and between science and technology, is a key ingredient for a successful professional activity

**A big thank you to all ESRs and our best wishes for the future**

# Closing Remarks

- **EASITrain** has been made possible by EC tools and funding

Always in the framework of future accelerators for HEP:

- **EuroCirCol** Design Study during the FCC CDR phase
- **FCCIS** Design study is now providing support now for the FCC feasibility study

EC provides us with unique tools that are essential for launching collaborations and international cooperation between academia and industry

# Thank you
