

Joint Annual Meeting of ÖPG and SPS 2021

Thursday, September 2, 2021

Start-ups: From great physics to innovative products - Room G (2:30 PM - 4:30 PM)

time	[id] title	presenter
2:30 PM	[394] □51□From Spin-off to Market Leader, from Lab to Fab	HERBIG, Jens
2:50 PM	[17] □52□From picogram-level infrared absorption spectroscopy towards photon-noise limited infrared detection	Mr LUHMANN, Niklas
3:10 PM	[333] □53□Basel Precision Instruments GmbH, enabling the second quantum revolution	FALLAHI, Parisa
3:30 PM	[67] □54□BrightLeaf™ perovskite QD films as X-ray scintillators	SHIRMARDI, Behzad
3:50 PM	[107] □55□usePAT - accurate measuring solutions, a spin-off of the Vienna University of Technology	RADEL, Stefan
4:10 PM	[74] □56□From academia to the market - best practice at UIBK	Mr BUCHBERGER, Peter

Start-ups: From great physics to innovative products - Room G (5:00 PM - 6:40 PM)

time	[id] title	presenter
5:00 PM	[30] □57□Optotune - from a fast growth high tech startup to a market leader in tunable optics	ZESCH, Wolfgang
5:20 PM	[41] □58□Holo-Light – AR/VR Technology for Enterprises	Mr HASPINGER, Florian
5:40 PM	[7] □59□Quantum metrology from lab to market	MUNSCH, Mathieu
6:00 PM	[221] □60□Parity Quantum Computing	LECHNER, Wolfgang
6:20 PM	[32] □61□Ion traps: from lab to industry	MONZ, Thomas
