

# Physics and law

# Who are the members of the „Tuzla team“;

<b>Amina Sarhatlić, fourth grade</b>	<b>Zerina Ahmetović, fourth grade</b>	<b>Asja Osmić, fourth grade</b>	<b>Adnan Imamović, fourth grade</b>
- <b>Electromagnetic force</b>	- <b>Gravitational force</b>	- <b>Weak nuclear force</b>	- <b>Strong nuclear force</b>

**Mirza Hadžimehmedović, a scientist**

**Armin Filipović,  
an artist**

**Azra Pihljak,  
a teacher**

**Amina  
Sarhatlić,  
fourth  
grade**

**Zerina  
Ahmetović  
,  
fourth  
grade**

**Asja  
Osmić,  
fourth  
grade**

**Adnan  
Imamović,  
fourth  
grade**

**Mirza  
Hadžimehmedov  
ić, a scientist**

**Armin Filipović,  
an artist**

**Azra Pihljak,  
a teacher**

# Something about our topic:

- ▶ We have chosen the topic of four fundamental forces which at the beginning of the universe were one and then later separated.
- ▶ They are responsible for the formation of the chemical elements (H, He, Fe, etc.) that make up the universe today.
- ▶ We will present scientific evidence for each of the forces.

# Intro of our video
