

International Particle Physics Outreach Group

IPPOG new website development Steering Group 4th meeting

Barbora Bruant Gulejova
Strategic Development Lead, IPPOG

Issues to be tackled today

<https://test-ippog-d8-clean.web.cern.ch>

1) Re-organization of the order of the items at the frontpage

- Activities and Resources higher up
- About and News lower

2) Organigram

- where to link WGs, SGs? Where to link IFAAB? Do we add members too, as for example on the organigram of the Teilchenwelt just with logos?

3) IPPOG at CDS, Publications, Calendar, etc.

- if not only for IPPOG people, they should be in the menu tree e.g. in About???

4) Main menu and submenus - Resource tab issue!

5) Validation of new design / layout of frontpage

<https://xd.adobe.com/view/196f9db2-07d3-411e-b4b5-efb5d8169fc0-4c3c/screen/4c3c60dc-a9fa-43af-a3a0-d3e6072086a3/?fullscreen>

6) Create WIKIPEDIA page for IPPOG – create a WG on this during the next IPPOG meeting?
