

Online Science Shows

“Learn physics in a fun way, with our interactive online science shows. Your students can participate both from the classroom and from home!”

Anja Kranjc Horvat, Sarah Zöchling, Gernot Scheerer

Online Science Shows

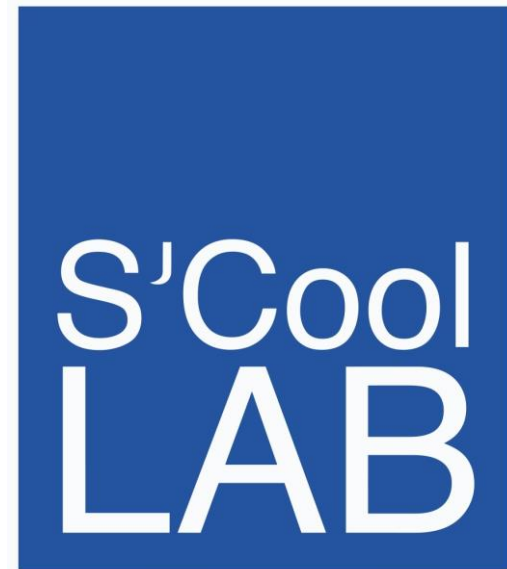

- **Permanent offer since November 2020**
(first shows for ScienceDaysDigital 2020)
- **Substitution for the on-site workshops**
- **Suitable for classroom teaching as well as home schooling:**

All needed for participation is a computer/tablet with speakers and internet browser (+projector if in classroom).

- **Two shows are currently available:**

“It's Just a Phase!”

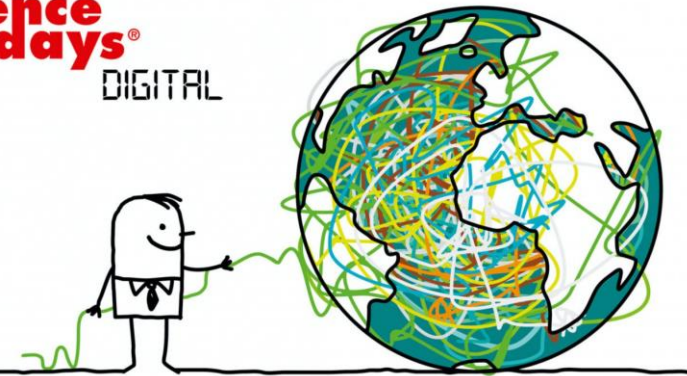

“Superconductors take off!”

19.10. – 29.11.2020

Das Online-Festival zum Mitmachen

Science show 1: **It's just a phase!**

- Live science demonstrations about phases and phase transitions
- Narrative thread revolving around a homemade particle detector
- Age group: 12-16 years
- Duration: 60 min

Science show 2: Superconductors taking off!

- Live science demonstrations about superconductivity and its applications
- Links to CERN research
- Age group: 14 – 19 years
- Duration: 60 min

Interactivity

Every show is a live performance

We make best out of Zoom features!

- **Pre-formatted interaction:**

- Quiz questions
- Choosing the hypothesis
- Choosing/manipulating the experiments

Which of the following properties can we observe on superconductors?

- a) *glow in the dark.*
- b) *zero electric resistance.*
- c) *transparent.*
- d) *interaction with magnets.*

- **Free interaction:**

- Question & Answer
- Chat

What will happen to a balloon, when we put it in liquid nitrogen?

Will it shrink, pop, expand, or change colour?

Live and interactive: Every show is unique and a special experience for the students

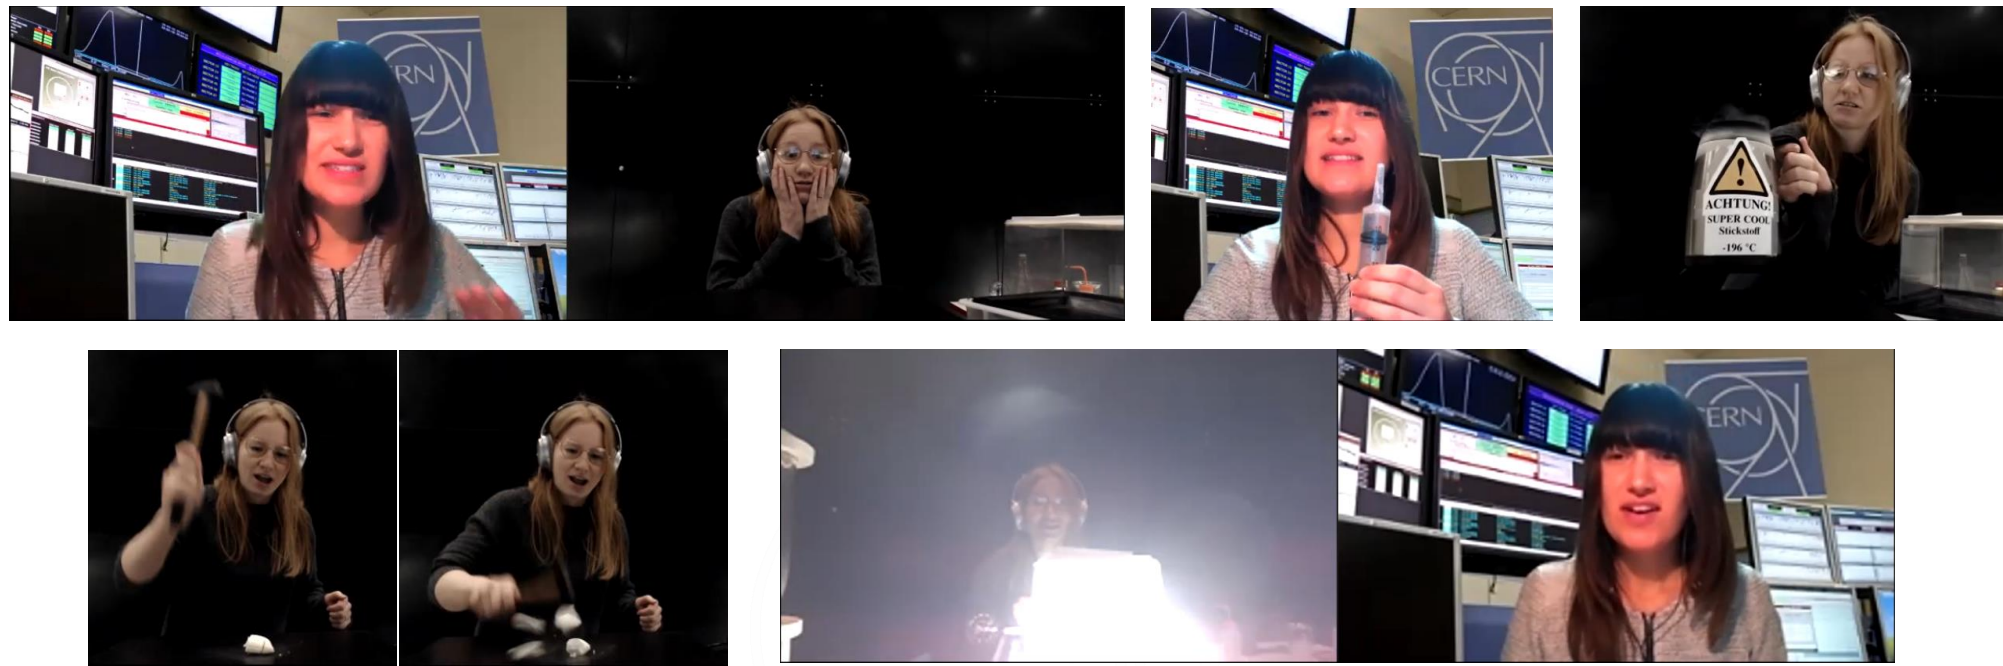

Target groups

- **Local school** via <https://voisins.cern> and newsletter
- All groups whose on-site workshop have been cancelled:
“**S’Cool LAB+ groups**”, done in first trimester of 2021)
“**cloud chamber groups**”, planned in April to June 2021
- Teacher networks
- Science outreach networks
- Direct contacts
- Other: request from virtual science camps / festivals

So far...

- Since the start in November 2020, we performed 30 shows with a total of 1500 participants, with a mean of 50 participants per show.
- We participated to a virtual science camp and two national virtual science festivals: ScienceDaysDigital 2020 (DE) and STEMtastic 2021 (UK).
- Mostly very positive feedback from teachers and students.
- We started with German, now we offer both shows in German, French, English, and Slovenian. Finnish, Italian, and Spanish coming soon.
- We are recruiting and training tutors to support us with the shows.

Merci bien!
