# Overview of this year's Forum

**We have organized this year's event in six sessions on three afternoons, always from 14:00 to 18:30 (CEST):**

- Monday, May 17:           1<sup>st</sup> session: LHCb related presentations  
                                  2<sup>nd</sup> session: ATLAS related presentations
- Tuesday, May 18:        3<sup>rd</sup> session: CMS related presentations  
                                  4<sup>th</sup> session: CMS related presentations
- Wednesday, May 19:    5<sup>th</sup> session: non-LHC detector related presentations  
                                  6<sup>th</sup> session: R&D related topics

The sessions are interrupted by coffee breaks where we can meet and discuss informally, using the Wonder me application:

# Organizational issues

- As in previous years, after each presentation significant time has been allocated for discussion:
  - Typically we have 20min presentation and 10min discussion.
  - **Please, make use the discussion time:**
    - ❖ You can use the 'raise hand' feature in Zoom or
    - ❖ put your question/comment in the Chat.
- There will be no recordings of the presentations, neither proceedings of the Meeting.
- Despite the fact that we are not meeting in person, we look forward to a fruitful Forum also this year...  
... and look forward to meet in person next year in Frascati.
