

We are looking for a person at CERN!

Find the correct answer to the five questions below: you will obtain five digits, which together constitute a CERN phone number. Find out who is behind that number.

#### Tips

- Make sure you get every digit right, or you will find a wrong person.
- If you are stuck or in doubt, there are hints for each of the five questions.
- You have 15'.  
If you find the answer before the time is up, take time to get to know each other a bit better.
- Break out rooms will close automatically after 15', and you will be redirected to the main room.
- Work as a team, make everyone contribute! Have fun!

1. What is the number of the highest floor level in building 30?

[Hint](#)
