

TWEPP-21

Topical Workshop on Electronics for Particle Physics

20 - 24 Sept 2021

Online event

<https://indico.cern.ch/e/twepp2021>

Deadline for abstracts: 30 April 2021

The workshop covers all aspects of electronic systems, components and instrumentation for particle and astroparticle physics experiments such as: electronics for particle detection, triggering, data-acquisition systems, accelerator and beam instrumentation.

Operational experience of electronic systems and R&D in electronics for LHC, High Luminosity LHC, FAIR, neutrino facilities and other present or future accelerator projects are the major focus of the workshop.
