

## Hadronics physics II

*Thursday, October 7, 2021 12:00 PM (40 minutes)*

- Pre-compound and de-excitation models
- Intra-nuclear cascade models (Bertini, Binary, Liege (INCL))
- String models (Fritiof, Quark Gluon String)
- Capture/stopping models
- Fission models
- Elastic process
- Neutron physics
- Ion physics

**Presenter:** RIBON, Alberto (CERN)
