

Workshop on QGP Phenomenology

Wednesday, 26 May 2021

Second session (16:00 - 17:15)

-Conveners: Rob Pisarski

time	[id] title	presenter
16:00	[29] Physical characteristics of glasma at very early times	CZAJKA, Alina
16:30	[6] Introduction to the CGC effective theory	BOUSSARIE, Renaud

Thursday, 27 May 2021

Second session (16:00 - 17:45)**-Conveners: Behrad Taghavi**

time	[id] title	presenter
16:00	[20] Event-by-event simulations of Pb+Pb collisions with anisotropic hydrodynamics	MCNELIS, Michael
16:30	[31] Collective behavior in rarely-interacting systems: time-dependent anisotropic flow coefficients	KERSTING, Nina
17:00	[19] Modelling Hydrodynamics	SPALIŃSKI, Michał

Friday, 28 May 2021

Second session (16:00 - 17:15)

-Conveners: Giorgio Torrieri

time	[id] title	presenter
16:00	[14] Theory of spin hydrodynamics for ultra-relativistic heavy-ion collisions	Mr SINGH, Rajeev
16:30	[13] Quantum energy-density fluctuations	FLORKOWSKI, Wojciech

Monday, 31 May 2021

Second session (16:00 - 17:15)

-Conveners: Matteo Buzzegoli

time [id] title

presenter

16:00	[22] General-relativistic viscous fluids	DISCONZI, Marcelo
16:45	[28] Is hydrodynamic stability enough?	GAVASSINO, Lorenzo
