

Session Program

22 April 2021

Mini-Workshop on gas transport parameters for present and future generation of experiments

Experiments at CERN with F gases

remote-only

Thursday 22 April

09:45

Experiments at CERN with F gases

Session | **Location:** remote-only | **Convener:** Davide Piccolo

09:45–10:05

F-gases usage in the ALICE experiment

Speaker

Luca Quaglia

10:05–10:35

F-gases usage and reduction strategy plan in the ATLAS and CMS experiments

Speaker

Gabriella Pugliese

10:35–10:55

LHCb-RICH detectors and their gas radiators

Speaker

Sajan Easo

10:55–11:15

R&D for the optimization of the use of greenhouse gases in particle detector systems

Speaker

Beatrice Mandelli

11:15
