

Mini-Workshop on gas transport parameters for present and future generation of experiments

Thursday 22 April 2021

Experiments at CERN with F gases (09:45 - 11:15)

-Conveners: Davide Piccolo

time	[id] title	presenter
09:45	[17] F-gases usage in the ALICE experiment	QUAGLIA, Luca
10:05	[18] F-gases usage and reduction strategy plan in the ATLAS and CMS experiments	PUGLIESE, Gabriella
10:35	[24] LHCb-RICH detectors and their gas radiators	EASO, Sajan
10:55	[20] R&D for the optimization of the use of greenhouse gases in particle detector systems	MANDELLI, Beatrice
