

----- Messaggio originale -----

**Oggetto:** Thu Oct 7: CM28 session Thursday, 10:00 am preparing NuFact10

**Data:** Mon, 04 Oct 2010 11:44:51 +0200

**Mittente:** Palladino <vittorio.palladino@na.infn.it>

**CC:** MICE@JISCMAIL.AC.UK

Dear MICE,

as Alain stressed in his talk this morning, after completion of Step I we do have results to show and must move to a new regime

- have a repository of official slides for each aspect of the experiment**
- foresee a disciplined process keeping them up to date**
- use that in the presentations we will make**

We must make good use of the time slot we have Thursday, 10:00 am to discuss this (thou it is only 15 minutes by now)

**Please DO THINK of what you would like to see presented as official plots/figures/numbers**

in the talks that are being prepared by

Yagmur Torun - "Goals and status of MICE" Marco Apollonio - "The design of the MICE muon beam line" Mark Rayner - "First analysis of data from the Step 1 MICE run"
---

and make them available to them and to the speaker bureau before or, at the latest, Thursday morning !!!

See you there

Vittorio

Discussion today, no feedback so far
