

**Session Program**

**27-28 May 2021**

**2nd Forward Physics Facility Meeting**

***Parallel Session: BSM Physics Ideas***

## Friday 28 May

17:00

### Parallel Session: BSM Physics Ideas

#### Session

17:00–17:15

#### Search for Lepton Flavour Violating Decay at FASER

**Speaker**

Kento Asai

17:15–17:30

#### Searching for anomaly-free gauge bosons at forward physics experiments

**Speaker**

Patrick Foldenauer

17:30–17:45

#### Crunching dilaton, hidden naturalness

**Speaker**

Ameen Ismail

17:45–18:00

#### Charming ALPs

**Speaker**

Christiane Scherb

18:00–18:15

#### Updated projections for FASER2 at the FPF

**Speaker**

Josh McFayden

18:15–18:30

#### Update from milliQan

**Speaker**

Matthew Daniel Citron

18:30
