TEP, PHYSICAL and tolerant exchange in higher education

Tuesday, December 14, 2021 4:20 PM (20 minutes)

One of the great challenges that teachers have is to make the class interesting to students, since they are attached to the use of technology from a very young age. The student is surrounded by stimuli, it is not uncommon for them to go to school in many cases with their tablet and cell phone, which leads them to keep in constant communication with their classmates through messages or chats, it is very It is common to find them watching educational videos in the breaks of everything they consider interesting, and then upload them to a social network
