## **Didactics for Contemporary physics and modern physics teaching at Strathmore University (Nairobi-Kenya)**

*Thursday, December 16, 2021 11:20 AM (20 minutes)*

The abstract gives the overview of the good practise being used at Strathmore University and university of Palermo in delivering contemporary and modern physics education to the students of B.Sc. Electrical and Electronics Engineering. The method which deploys more of didactics than calculatory involves students engaging with each other in investigating the phenomenon and presenting the findings from the investigation. The methods makes students more interactive which eventually improves on their communication skills as well as team work.

**Primary authors:** Prof. BAUDOUIN , Dillmann (Strathmore University ); Mr OBBO, Joseph (Strathmore University); Prof. PERSANO ADORNO, Dominique (University of Palermo)

**Presenters:** Mr OBBO, Joseph (Strathmore University); Prof. PERSANO ADORNO, Dominique (University of Palermo)

**Session Classification:** Parallel 10 - Wroclaw

**Track Classification:** 20. Contemporary physics and modern physics in schools and universities
