

Session Program

14-16 Jun 2021

Detector Modelling Workshop 2021 (DeMo)

Detector Measurements/Models 2

Online

Wednesday 16 June

13:00

Detector Measurements/Models 2

Session | **Location:** Online | **Convener:** Elizabeth George

13:00–13:25

Model of HgCdTe SWIR integration ramp for constant flux integration and persistence current

Speaker

Mr Titouan LE GOFF

13:25–13:50

An Automated Algorithm for Persistence Correction in an Operational Environment

Speaker

Dr Mark Neeser

13:50–14:15

Tearing and mitigation in the LSST Focal Plane

Speaker

Dr Claire Juramy-Gilles

14:15
