Workshop Overview & Goals: Day 2

Mark Neubauer

University of Illinois at Urbana-Champaign

Virtual Meetings
Blueprint Workshop
May 5-6, 2021
Day 1 Reflections

● We had a great set of talks and discussion yesterday!
  ○ Thanks to all who participated and to our speakers that dedicated so much of their time to present data and perspectives on behalf of their events
    ■ We had a good mix of events large and small, from international conferences to workshops to training events
  ○ A special thanks to Ben Krikler for his thoughtful and forward-looking take on virtual meetings with a perspective from both within and beyond HEP

● Several themes emerged from the talks and discussion:
  ○ Virtual meetings come with several benefits such as increased participation by early-career scientists and international collaborators, budgets, carbon footprint
  ○ Challenges include a lack of personal interaction opportunities and diminished quality of those interactions, “Zoom fatigue”, attention capture, time zones
  ○ Zoom is an adequate current tool for “traditional” presentation-style, but other tools are needed for in-person style interactivity (many great ideas shown!)
Gathering in Wilson Hall Today
# Day 2 Activities (1 of 2)
