

Baltic School of High-Energy Physics and Accelerator Technologies 2021

Monday 2 August 2021 - Friday 6 August 2021

Camping "Ronīši"

Scientific Programme

The full scientific programme and the timetable for the lectures will be populated in due course.

Scientific programme will include to coverage of broad topics in:

- Quantum Field Theory;
- Quantum Electrodynamics;
- Quantum Chromodynamics;
- Standard Model Physics;
- Beyond the Standard Model Physics;
- Collider physics and precision physics at the LHC;
- Particle accelerator technologies;
- Particle accelerator applications;
