

## Frontiers in Sensors, Special Collection: **Recent Advances in the Development of Radiation Hardness in Semiconductor Sensors**

<https://www.frontiersin.org/research-topics/20213/recent-advances-in-the-development-of-radiation-hardness-in-semiconductor-sensors>

- Guest editors Eija Tuominen ([eija@cern.ch](mailto:eija@cern.ch)) & Erik Brücken ([jens.bruecken@helsinki.fi](mailto:jens.bruecken@helsinki.fi))
- Most welcome: manuscripts about the design, simulation, fabrication, characterization, interconnection technologies and read-out electronics of radiation hard detectors - for science, medicine, security
- Frontiers is Golden Open Access Journal, thus with publication fee →
  - Check your institutional agreements <https://www.frontiersin.org/about/institutional-membership>
  - Some waivers available, contact Eija / Erik
- Manuscript deadline **September 1<sup>st</sup>, 2021**
- Looking forward to hearing from you 😊
