TIPP 2011 - 2nd International Conference on Technology and Instrumentation in Particle Physics

Contribution ID: 461

Type: Poster Presentation

Quality control in the production of the MINERvA detector

We give the purpose and goals of the MINERvA experiment. We present the design of the experiment. As quality control is part of the design, we show some quality control which took place during the production phase. We also show the performance of the detector.
