# Studies of the CP properties of the Higgs boson at the ATLAS experiment

*Wednesday 20 October 2021 08:30 (10 minutes)*

Studies of the CP properties of the Higgs boson in various production modes and decay channels are presented. Limits on the mixing of CP-even and CP-odd Higgs states are set by exploiting the properties of diverse final states.

**Primary authors:** ATLAS COLLABORATION; RIU, Imma (IFAE Barcelona (ES))

**Presenter:** ARCANGELETTI, Chiara (INFN e Laboratori Nazionali di Frascati (IT))

**Session Classification:** Parallel: Precision and Properties

**Track Classification:** Higgs-boson properties
