Measurements of Higgs cross sections and differential distributions in the H- \rightarrow tautau final state from CMS

Thursday 21 October 2021 16:40 (10 minutes)

The latest Higgs cross section and differential distribution measurements with CMS data in the H- \rightarrow tautau final state will be discussed.

Primary author: CMS

Presenter: KIM, Doyeong (KANSAS STATE UNIVERSITY)

Session Classification: Parallel: Precision and Properties

Track Classification: Higgs-boson precision physics
