

# BNL Contribution to HEP-SCORE Tests

- SuperMicro with 2 x Intel Cascade Lake Gold 6252 (purchased in February 2021)
  - 192 GB RAM and 8 TB SSD's
  - SL 7.x
  - Exclusive access for bare-metal whole-node
- Future hardware platforms on near-term purchases to be made available for benchmarking, as needed
- To be run by BNL staff with experience running benchmarks
- Access to existing hardware for benchmarking purposes is available
  - Useful reference point for hardware comparison
  - Also useful to determine HS-06 and HEP-SCORE scaling
