# Materials and Engineering Technologies for Particle Accelerator Beam Diagnostic Instruments

## Introduction to the Workshop

# Workshop overview

---

- Three afternoons 21-23 June 2021 from 13:30 to ~18:00
- Introduction session, with one opening talk
- Three sessions:
  - Beam diagnostic instruments: design, production and operation
  - Novel materials and applications
  - New technology and components
- 21 invited talks of 20 minutes with a brief 5 minute discussion after each talk
  - Includes 4 technical talks from industry
- Longer discussion session after each session
- Wrap-up/overall discussion after the last session

# Plenary session and breakout rooms

---

- All talks and main discussions will take place in the 'plenary' Zoom room
- A number of 'breakout' rooms will be available, to be used for:
  - More detailed discussions or coffee discussions between small groups
  - Specific technical or commercial discussions with the industry speakers (we have placed the industry talks before discussions or coffee breaks!)
- Breakout session access will be managed from the core admin team
  - Madeleine Catin, Dmitry Gudkov, Peter Forck, Ray Veness

# General Zoom meeting guidelines

---

- Please mute your microphone and stop your video when you are not speaking
- Please correct your name in Zoom if necessary to be recognisable
- For questions in the plenary:
  - Please make a comment in the 'chat' or raise your hand
  - The session chair will moderate the discussion
  - Please be clear, brief and specific in your questions and use the chat if suitable
- For the breakout rooms
  - These are not moderated, but participants will be recalled for the next plenary

# Reminders for speakers

---

- Please keep to you time!
  - Session chairs will interrupt you if necessary
- Please upload your talks, if possible the night beforehand
  - This will allow us to present them centrally in case if bandwidth or other issues
  - The Zoom room will be open for 1 hour before each afternoon and during breaks for you to test your material
- Talks are given from your local computer, but don't hesitate to ask for support.
- We will ask you for a ½ page summary of your talk to allow us to compile a report for ARIES
  - This will be managed by the session chairs
  - We also have the option to write a summary paper on the workshop for IBIC
- Remember to put your mobile phone on silent before you start...

TUESDAY 22<sup>nd</sup> @ 14:45 CEST (UTC+2h) →  
DON'T MISS IT!**

# Have a fun and rewarding workshop

Thanks again to Madeleine and  
Dmitry for their invaluable help
