

# COVID-19 Restrictions

**EHN1 Users**

# Restrictions in the EHN1 control rooms

- The **maximum number** of people **per CR** based on the CERN/Host States rules. Main ones are:
  - **2m** distance between occupants (about 7m<sup>2</sup> per person)
  - Ventilation of at least **36 m<sup>3</sup>/h** per person
  - Validation by [CARA simulation software](#)
- **Masks, hand disinfectant and surface disinfectant** (wipes) will be provided by CERN. This material will be centrally stocked in the barrack 887/R-C04 and distributed to 1 contact person per experiment or left directly inside the control room. For any additional request you can contact:
  - [ep-adso@cern.ch](mailto:ep-adso@cern.ch)
  - [EHN1-TSO@cern.ch](mailto:EHN1-TSO@cern.ch)
- Mask **Type 1** will be the default masks, however, mask **FFP2** are available and distributed upon request (i.e. vulnerabilities)

# Restrictions in the EHN1 control rooms

- A **dedicated document** summarising all the rules has been created: [EDMS 2602076](#)
- For each control room:
  - The maximum number of people will be displayed on doors
  - Only desks at 2m one to the other can be used – interpersonal distance to be respected
  - Mask to be worn at all time, even when seated
  - Hand disinfection and surface disinfection to be done as often as possible
  - Cleaning of the barracks will be done by cleaning personnel multiple times per week
- These rules might evolve with time. We will make sure to keep you updated accordingly!
