

# Anomalies and Precision in the Belle II Era - Workshop

## Wednesday, 8 September 2021

### Dark sectors (12:00 - 17:00)

| time  | [id] title  | presenter              |
|-------|---|------------------------|
| 12:00 | [40] Connecting dark sector with other anomalies (Remote)                         | FEDELE, Marco          |
| 12:30 | [37] Heavy neutral leptons  | TAMMARO, Michele       |
| 12:50 | Lunch break   |                        |
| 14:05 | [36] Dark matter at the GeV scale and searches at low-energy experiments (Remote) | KAHLHOEFER, Felix      |
| 14:30 | [46] Dark sector searches at Belle (Remote)                                       | CZANK, Thomas          |
| 14:50 | [38] Dark sector searches at Belle II   | ZANI, Laura            |
| 15:15 | [39] Missing energy and displaced vertices at Belle II                            | BERTEMES, Michel       |
| 15:35 | Coffee Break  |                        |
| 16:00 | [41] Axion-like particles at flavour experiments (Remote)                         | RENNER, Sophie         |
| 16:20 | [42] GAZELLE - physics potential of proposed LLP detector for Belle II            | FILIMONOVA, Anastasiia |
| 16:40 | [43] Dark sector and new ideas for LLP searches at LHCb (Remote)                  | CID VIDAL, Xabier      |
