

ESIPAP 2021 : organization evaluation

Sharing smiles & flags
for the final picture !

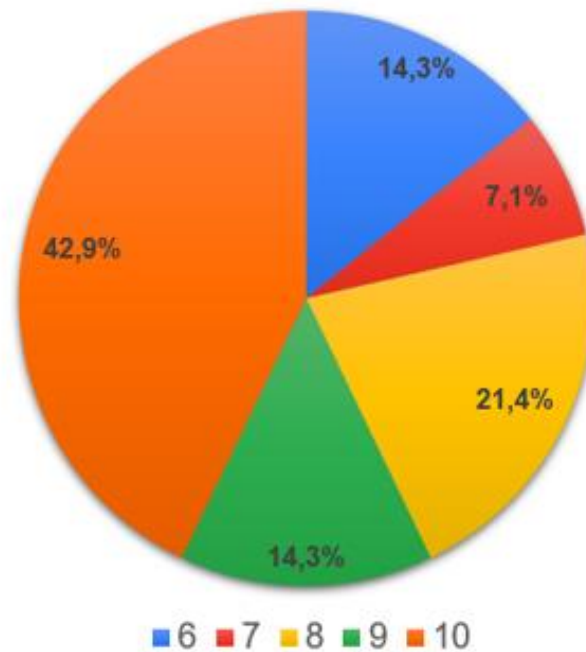

esipap...

Participants feedbacks

24 participants → 14 feedbacks received

How do you rate your overall experience at ESIPAP ?

Average = 8,6 / 10

Participants feedbacks

To what extent did technical issues hinder your participation in some activities / sessions ?

Difficulty to follow 8 weeks of zooms session from 9:00 to 17:15

Poor internet connection from some faculty member (not a stable connexion)

Remote = less human interactions

How could we improve the organisation of ESIPAP as a remote-format school?

Administrative

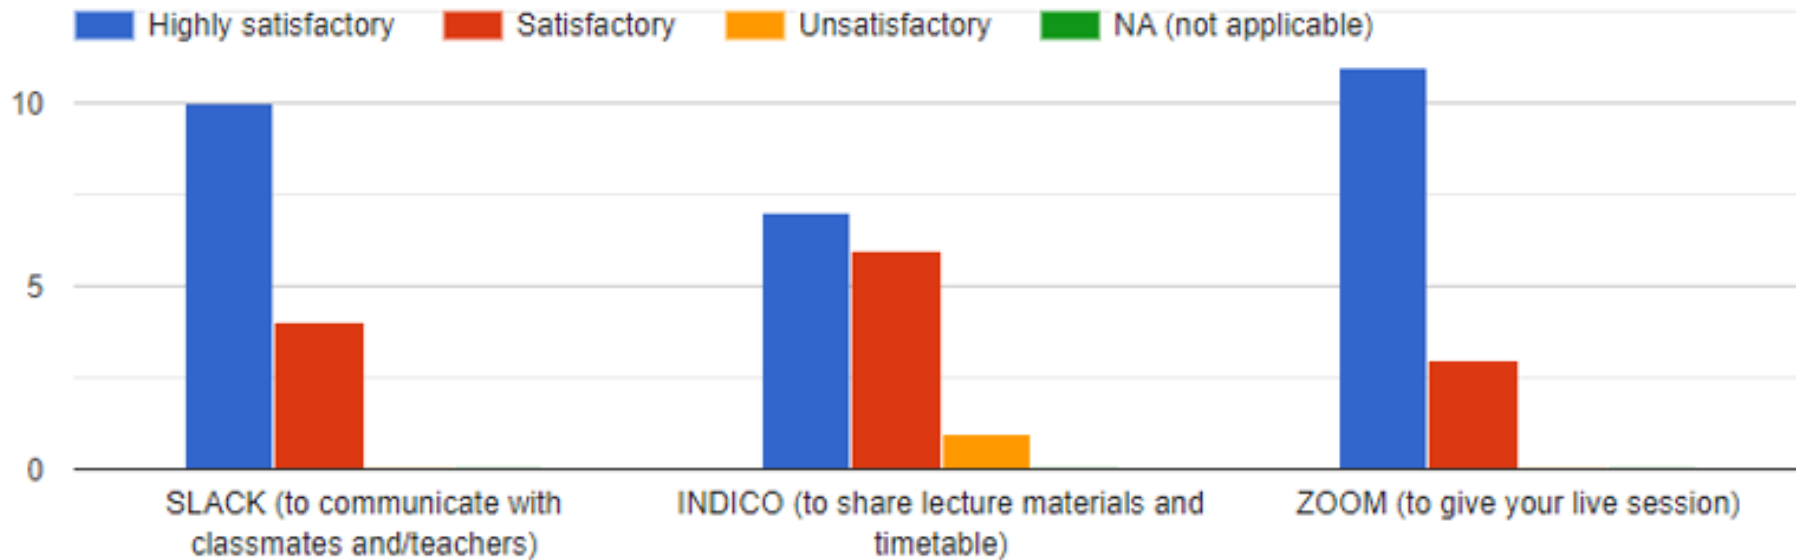

- Record lectures
- Less time at noon (1h45) to be able to finish earlier than 17:15
- Give feedback of the lecturer every morning/afternoon to really reflect the impression of participants

Programme

- More tutorials and exercices
- More projects in groups like in week 8
- More interactive lab session and a better quality

Online tools

Weaknesses

High volume of hours
Redudancy of some topics
Too much information

Difficulty to follow lab
sessions

The remote and
creation of social link

Strenghts

Team of specialist
Expert in their domains
Number of faculty members
Diversity of the programme
Quality of lectures

International context
Friendliness
Team spirit
Dynamic

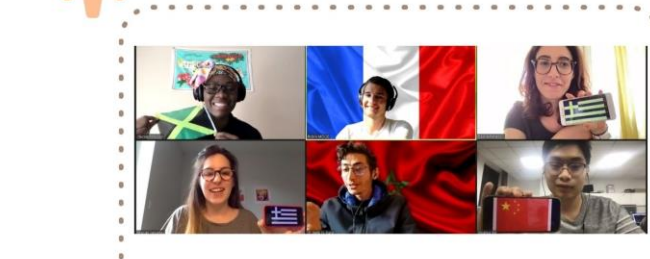

High level of
organisation and
assistance

Online social event

GROUP WORK WEEK AT esipap...

Testimonies

ESIPAP was a great surprise. I did not thought I will learn so much, in such a short time. I'm not coming from particle physics, and it completes well my formation. I really enjoyed it. **The fact to exchange with teachers, and people from different nationalities is an enormous strength.**

I have gain an immense amount of understanding on many concepts of which I never understood before. I have also gotten the **opportunity to learn new concepts, to look at things from different perspective. I was also able to make connections to several path on completion of the degree of which I never thought of before.** I really had no negative experience only need more time.

I really enjoyed this period of ESIPAP, meeting people from different horizons, **having different teachers to explain us what we have to know, and where we are in research. It is sincerely one of the best part of my formation, even if it was in distance.**

Thank you from team ESI !
