## SQM2022 Epilogue

### **Yes, it was more than expected!**

Despite quite painful preparations, the Local Organizing Committee was really happy to have all of you in-person (135) and online (191) from 41 countries with 54 plenary talks, including overviews and summaries, and 107 contributions in the parallel sessions.

We thank you all for the contributions and the active participation in the conference and wish you all safe return travels.

## **Conference photo gallery**

The 1<sup>st</sup> draft version of the photo gallery is now available at <https://sgm2022.pusan.ac.kr/pages/general-info/gallery/> , where you can find precious moments of your own.

## **Session recordings available until July 12-17**

The session recordings are also available for watching until July 17 via [Zoom Event Lobby of SQM2022](#). You may need to log in with your e-mail account dedicated to the conference.

## **Proceedings to be submitted by Aug. 28**

Please, prepare a brief paper for finalizing your contributions and submit it by Aug. 28 according to the instructions in <https://indico.cern.ch/event/1037821/page/25464-proceedings>. We plan to publish the proceeding in the **EPJ Web of Conference** within a few months after peer-review. We look forward to your co-operations.

## **Covid-19**

So far, one positive patient is reported on Jun. 26 after the conference. You may need to get tested despite being out-of-date.
