

Session Program

9-12 Nov 2021

Searching for long-lived particles at the LHC and beyond: Tenth workshop of the LLP Community

Belle II

Virtually, worldwide

Wednesday 10 November

14:00

Belle II: (All talks 12+3)

Session | **Location:** Virtually, worldwide | **Conveners:** José Francisco Zurita, Dr Louie Dartmoor Corpe

14:00–14:15

Probing charged lepton flavor violation with axion-like particles at Belle II

Speaker

Zeren Simon Wang

14:15–14:30

Long-lived Sterile Neutrinos at Belle II in Effective Field Theory

Speaker

Julian Günther

14:30–14:45

Heavy QCD Axion at Belle II: Displaced and Prompt Signals

Speaker

Vazha Loladze

14:45–15:00

Displaced or Invisible? ALPs from B decays at Belle II

Speaker

Ruth Schäfer

15:00
