

Session Program

9-12 Nov 2021

Searching for long-lived particles at the LHC and beyond: Tenth workshop of the LLP Community

Lightning round / new ideas: Session 4

Virtually, worldwide

Friday 12 November

15:50

Lightning round / new ideas: Session 4

Session | **Location:** Virtually, worldwide | **Conveners:** James Beacham, Louie Dartmoor Corpe

15:50–16:05

Simulating a Pure Gluon Shower for Dark Sector Searches

Speaker

Caleb Gemmell

16:05–16:20

Revisiting the scotogenic model with scalar dark matter

Speaker

Ivania Maturana Ávila

16:20–16:35

On long-lived electroweak-singlet coloured scalars

Speaker

Christian Preuss

16:35–16:50

Indirect detection of long-lived particles via a less-simplified dark Higgs portal

Speaker

Krzysztof Jodkowski

16:50
