## ECFA Detector R&D Roadmap

*Monday, February 21, 2022 9:30 AM (40 minutes)*

The European Strategy for Particle Physics Update recommended that “Organised by ECFA, a roadmap should be developed by the community to balance the detector R&D efforts in Europe, taking into account progress with emerging technologies in adjacent fields“. This Roadmap which is based on the input of the community and was developed within the Detector R&D Panel, was approved by ECFA and published at the end of 2021. In this talk the findings of the Task forces and the corresponding detector technology areas or cross-cutting activities will be presented. The important drivers and general strategic recommendations for future Detector R&D will be highlighted.

### Primary experiment

**Primary author:** KUEHN, Susanne (CERN)

**Presenter:** KUEHN, Susanne (CERN)

**Session Classification:** Large Detector Systems

**Track Classification:** Miscellaneous
