

# Chapter 4: 1<sup>st</sup> Editor Feedback

- ▶ Short comments and observations
  - ▶ Nice account of future plans and technology developments
  - ▶ A short intro would help to set the scene (CERN as an example)
  - ▶ Overlap with Chapter 5?
  - ▶ Technical editing needed (format, sub-chapter indexing etc.)
  - ▶ References missing
  - ▶ Condensing may be needed (currently 16 pages, not including references)

## Editor 2 – Chapter 4

- ▶ Excellent piece of work and bring together some technology applications of LHC and justification for big science operations
- ▶ Authours have drawn together how some technological development such as super conducting material can solve some key social and economic issues with reference to industry involvement.
- ▶ This chapter has been reviewed by critical friends and scholars with glowing comments.
- ▶ The chapter can be fined tuned to improve with other comments.
