

Chapter 10: 1st Editor Feedback

- ▶ Short comments and observations
 - ▶ Interesting ingredients (social value of basic science, social value, leadership, human value, art and science etc.)
 - ▶ Check if meaningful cross-references can be made in the context of Big Science (referring to e.g. chapters 1, 12, 14 etc.)
 - ▶ Conclusions missing
 - ▶ Length about right (currently 14 pages)

Editor 2- Chapter 10

- ▶ Chapter requires to reference point – it takes social capital theory as core construct.
- ▶ The different sections written by individuals have not been connected and structure of the chapter need more work.
- ▶ It can be easily achieved by carefully connecting central piece of argument.
- ▶ It would be useful if the UN Sustainable Development can be linked to objectives of big science and its outcomes and influence
