

HEP 2021 - 38th Conference on Recent Developments in High Energy Physics and Cosmology, Thessaloniki, Greece

Friday 18 June 2021

Plenary 8, Fri 18/6 (11:20 - 13:30)

-Conveners: Christine Kourkouvelis

time	[id] title	presenter
11:20	[60] Co-60 Irradiation at HL_LHC levels of p-type silicon MOS capacitors and TCAD simulations	KYRIAKIS, Aristoteles
11:45	[61] Probing new physics with nuclear and electron recoils	PAPOULIAS, Dimitrios
12:10	[62] Embeddings of integrable models in supergravity and their perturbative stability	ITSIOS, Georgios
12:35	[64] Vector Boson Scattering with the ATLAS Detector and EFT prospects	SAMPSONIDOU, Despoina
13:00	[63] A Machine Learning approach to the EFT re-interpretation of the WZjj fully leptonic EWK production	BACHAS, Dinos
