=====

Site-specific issues:

1) 5/28: OU\_OSCER\_ATLAS: source file transfer errors ("Unable to connect to IP|HOST:PORT globus\_xio: System error in connect: Connection timed out globus\_xio"). Restarting services (gridftp, re-mount xrootdfs) probably fixed the problem. As of 6/1 no recent errors, so [https://ggus.eu/?mode=ticket\\_info&ticket\\_id=152215](https://ggus.eu/?mode=ticket_info&ticket_id=152215) was closed. <https://atlas-adc-elisa.cern.ch/elisa/display/2592?logbook=ADC>.

Follow-ups from earlier reports:

(i) 5/18: AGLT2 - file transfer failures with "Could not connect to server." Site experienced a hardware failure in a network switch that provides WAN connectivity. [https://ggus.eu/?mode=ticket\\_info&ticket\\_id=152041](https://ggus.eu/?mode=ticket_info&ticket_id=152041) in progress, <https://atlas-adc-elisa.cern.ch/elisa/display/2509?logbook=ADC>.

(ii) 5/18: BNL - user reported an issue with jobs failing, due to problem trying to access some input files. However, when the jobs were tried at a different site the same errors were still present. So, most likely an issue with the input files themselves rather than a site-related one.

[https://ggus.eu/?mode=ticket\\_info&ticket\\_id=152046](https://ggus.eu/?mode=ticket_info&ticket_id=152046).

Not a site issue - ticket was re-assigned.
