- $pp \rightarrow F\bar{F} \rightarrow \mu s \bar{\mu} s$

Figure: Decay process of F

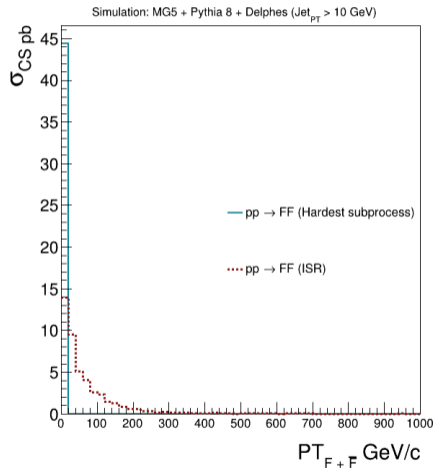

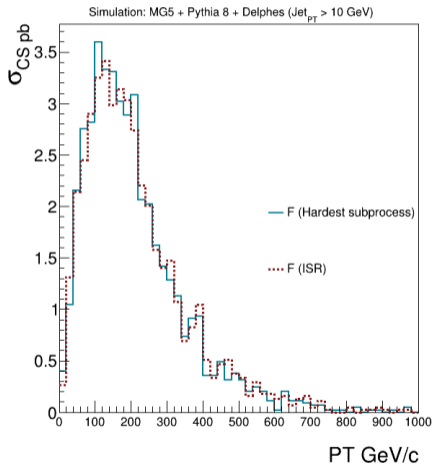

## □ Events Generation:

- 10,000 generated events.
- Generation:  $pp \rightarrow F\bar{F}$ ,  $F \rightarrow \mu s$  in 13 TeV.
- Generation:  $pp \rightarrow F\bar{F} + Jet$ ,  $F \rightarrow \mu s$  in 13 TeV.
- Generation:  $pp \rightarrow F\bar{F}$  and  $F\bar{F} + Jet$ ,  $F \rightarrow \mu s$  in 13 TeV.
- Select the Jet in each event with  $PT \geq 10$  GeV/c and 30 GeV/c.

## □ Goal:

- Observe the shape of the graph.

# Simulation

Simulation: MG5 + Pythia 8 + Delphes ( $\text{Jet}_{\text{PT}} > 10 \text{ GeV}$ )

Simulation: MG5 + Pythia 8 + Delphes ( $\text{Jet}_{\text{PT}} > 30 \text{ GeV}$ )

# Simulation

# Simulation

Simulation: MG5 + Pythia 8 + Delphes (Jet<sub>PT</sub> > 10 GeV)

Simulation: MG5 + Pythia 8 + Delphes (Jet<sub>PT</sub> > 30 GeV)

Table: Generation

Process	$PT_{Jet}(GeV/c)$	Events	$\sigma_{cs}$	MLM
$pp \rightarrow F\bar{F}$	$> 10$	836	44.51	-
$pp \rightarrow F\bar{F} + Jet$	$> 10$	975	43.83	On
$pp \rightarrow F\bar{F}$ and $pp \rightarrow F\bar{F} + Jet$	$> 10$	919	124.3	On
$pp \rightarrow F\bar{F}$ and $pp \rightarrow F\bar{F} + Jet$	$> 10$	913	88.77	Off

## Result

- The ratio between the processes of separate generations and the process of united generations with merging scheme is given by:

$$\frac{E_{FF} + E_{FFJ}}{E_{FF+FFJ}} = \frac{905}{919} \approx 0.98 \quad (1)$$

## □ Result

- The ratio between the processes of separate generations and the process of united generations without merging scheme is given by:

$$\frac{E_{FF} + E_{FFJ}}{E_{FF+FFJ}} = 1.0066 \quad (2)$$

Table: Generation  $pp \rightarrow F\bar{F}$  and  $pp \rightarrow F\bar{F} + Jet$

## □ Events Generation:

- 10,000 generated events.
- Generation:  $pp \rightarrow F \bar{F}, F \rightarrow \mu s$  in 13 TeV.
- Generation:  $pp \rightarrow F \bar{F} + \text{Jet}, F \rightarrow \mu s$  in 13 TeV.
- Generation:  $pp \rightarrow Z \rightarrow \mu \bar{\mu}$  in 13 TeV.
- Generation:  $pp \rightarrow Z + \text{Jet}, Z \rightarrow \mu \bar{\mu}$  in 13 TeV.
- Select the leading Jet in each event with  $PT \geq 100 \text{ GeV}/c$ .

## □ Goal:

- Observe the shape of the graph.

## □ Events Generation:

- 10,000 generated events.
- Generation:  $pp \rightarrow F\bar{F} \rightarrow \mu s \bar{\mu} s$  in 13 TeV.
- Select the leading Jet in each event with  $PT \geq 100$  GeV/c.
- Difference between mass of the F particle and the S particle is  $1 \text{ GeV}/c^2$ .

## □ Goal:

- Observe the shape of the graph when increasing the mass of the FIMP.

## □ Events Generation:

- 10,000 generated events.
- Generation:  $pp \rightarrow F\bar{F} \rightarrow \mu s \bar{\mu} s$  in 13 TeV.
- Select the leading Jet in each event with  $PT \geq 100 \text{ GeV}/c$ .
- Difference between mass of the F particle and the S particle is  $1 \text{ GeV}/c^2$ .

## □ Goal:

- Observe the shape of the graph when increasing the mass of the FIMP.

## Events Generation:

- 10,000 generated events.
- Generation:  $pp \rightarrow Z \rightarrow \mu \bar{\mu}$  in 13 TeV.
- Generation:  $pp \rightarrow Z + \text{Jet}, Z \rightarrow \mu \bar{\mu}$  in 13 TeV.
- Select the leading Jet in each event with  $PT \geq 25$  GeV/c or 100 GeV/c.

## Goal:

- Observe the shape of the graph when  $Z$  and  $Z + \text{Jet}$  are generated.

## □ Events Generation:

- 10,000 generated events.
- Generation:  $pp \rightarrow F\bar{F}, F \rightarrow \mu s$  in 13 TeV.
- Generation:  $pp \rightarrow F\bar{F} + Jet, F \rightarrow \mu s$  in 13 TeV.
- Select the leading Jet in each event with  $PT \geq 100 \text{ GeV}/c$ .

## □ Goal:

- Observe the shape of the graph when  $F\bar{F}$  and  $F\bar{F} + Jet$  are generated.

## □ Events Generation:

- 10,000 generated events.
- Generation:  $pp \rightarrow F\bar{F}, F \rightarrow \mu s$  in 13 TeV.
- Generation:  $pp \rightarrow F\bar{F} + Jet, F \rightarrow \mu s$  in 13 TeV.
- Generation:  $pp \rightarrow Z \rightarrow \mu\bar{\mu}$  in 13 TeV.
- Select the leading Jet in each event with  $PT \geq 25 \text{ GeV}/c$ .

## □ Goal:

- Observe the shape of the graph and check the proportionality relationship between PT and MET
