

## **Session Program**

**1-10 Nov 2021**

**PHYSTAT-Systematics 2021, 1-3 Nov + 10 Nov**

***Session 3b***

# Wednesday 3 November

16:00

## Session 3b: Short talks by Statisticians

Session | Location: | Convener: Glen Cowan

16:00–16:25

### Transfer Learning for data-driven background modelling: Optimal Transport v Classifier Extrapolation

**Speaker**

Tudor Manole

16:25–16:50

### Systematic effects versus nuisance parameters

**Speaker**

Richard Lockhart

16:50–17:15

### Universal Inference

**Speaker**

Larry Wasserman

17:15–17:40

### Bayesian reflection on Systematics

**Speaker**

James Berger

17:40–17:42

### Partially Bayes : An inter-perspective approach for handling nuisance parameters

**Speaker**

Xiao-Li Meng

17:42–17:57

### Final remarks \*\* N.B. Summary Talks on Nov 10th \*\*

**Speaker**

Olaf Behnke

18:20
