

From Coadjoint Orbits to Black Holes

Monday, January 17, 2022

Evening talk: Alex Maloney: Wormholes and Statistics in Averaged Holographic Duality (5:00 PM - 6:15 PM)

Evening talk: Tom Hartman: 3d gravity and conformal blocks (6:15 PM - 7:30 PM)

Tuesday, January 18, 2022

Evening talk: Eckhard Meinrenken: On Hamiltonian Virasoro spaces (5:00 PM - 6:15 PM)

Evening talk: Kristan Jensen: Soft gravitons in three dimensions (6:15 PM - 7:30 PM)

Wednesday, January 19, 2022

Evening talk: [Colloquium] Miriam Cvetič: String Theory Confronts Black Holes (6:00 PM - 7:30 PM)

Thursday, January 20, 2022

Evening talk: Leon Takhtajan: Supersymmetry and trace formulas (5:00 PM - 6:15 PM)

Evening talk: James Sully: The Landscape of Gravitating Branes (6:15 PM - 7:30 PM)
