

HTCondor Workshop Autumn 2021

Welcome and Introduction

Helge Meinhard / CERN
(European) HTCondor Workshop 2021 in Zoom Land
20 September 2021

Welcome

- To all registered participants (138 as of this morning)
- Pleased to see so much support for holding the workshop despite sanitary restrictions, and hence for holding it online
 - Thanks to INFN Torino, who had proposed to host
- Hopefully next year will be in-person in Europe
- On the other hand, online format allows for larger and more widespread attendance

Practicalities (1)

- Discussion is precious and important
 - Ten minutes foreseen after each presentation
 - Don't be afraid of asking questions or commenting – it is for the benefit of the whole community
- Two sessions in a new format
- Group photograph

Practicalities (2): Wed after Coffee

- One (user) presentation, followed by...
- “Open stage” and office hours: will start by...
- “Show us your toolbox”: An invitation to **you** to show tools in action that you find interesting, helpful, saving work, ...
 - No slides needed, no formalities – just when invited by the chair, share your screen, show and explain
- Followed by “Office Hours”: Opportunities for users, administrators and developers to discuss their questions, concerns, ideas one-on-one with the CHTC team and experienced community people
 - Number and themes to be determined, let us ([hepix-2021condorworkshop-support \(at\) hepix.org](mailto:hepix-2021condorworkshop-support@hepix.org)) know of your interests

Practicalities (3): Thu after Coffee

- Want even more time for questions and discussions? Four topics:
 - HTCondor philosophy and architecture
 - HTCondor Python bindings
 - Negotiator policy and configuration
 - Using IDTokens for authentication in HTCondor 9
- Videos, recordings, slides being made available now
- Go through the material before, surely will be many questions!

Practicalities (4): Group Photo

- Yes, even possible for an on-line workshop!
- Join any one of the two photo sessions and activate your camera in Zoom
 - Monday before second session (i.e. after coffee break)
 - Thursday after first session (i.e. before coffee break)
- Thanks to Sebastian Lopienski

Logistics (1)

- Zoom link: accessible to registered participants
 - Don't forward – tell interested people to register
- Shared document: Link will be communicated in Zoom chat – login to CERN (like to Indico)
- Talks not to exceed allocated time
 - We want to preserve discussion time

Logistics (2)

- We strongly encourage all participants to ask questions
 - Like to speak up after a presentation? Use Zoom “raise hand” feature
 - Feel free to enter questions and comments into the shared document
 - ... but don’t forget to “raise hand”
 - Will try and address points offline for which there was no time during the session (but no promises)
 - Speakers, please watch the document and reply

Thanks in Advance

- To you – without registrants and attendees, the workshop would be pointless
- To all speakers from the HTCondor team and the user community alike
- To our “photographer”
- To my colleagues in the organising committee for their collaboration, including serving as session chairs etc.
- To all technical support people making this online workshop possible

HTCondor Workshop Autumn 2021

Have a good workshop!

Thank you!
