

# Second African Conference on Fundamental and Applied Physics ACP2021

Contribution ID: 38

Type: **Invited Talk**

## **Status and Impact of Particle Accelerators in Africa**

*Monday, March 7, 2022 12:00PM (25 minutes)*

This talk will explore the status of the particle accelerator laboratories in the African continent. Firstly; the presentation will focus on the different particle accelerator laboratories available on the continent, the type of machines available in each of the facilities. Furthermore, the talk will focus on different research platforms available in each facility on the continent; and the societal impact of these facilities.

### **Abstract Category**

**Presenter:** MIRA, Joele (iThemba LABS)

**Session Classification:** Physics Plenary (1)
