

Second African Conference on Fundamental and Applied Physics ACP2021

Contribution ID: 46

Type: **Invited Talk**

Physics of the Earth

Tuesday, 8 March 2022 13:00 (25 minutes)

I will talk about frontier research in physics of the solid-Earth in Africa with emphasis on physics of natural hazards such as earthquakes and volcanic eruptions. I will also cover important milestones in the development of the ICTP partnership and community in this specific field in which fundamental physics has direct implications on the society and its resilience.

Abstract Category

Presenter: AOUDIA, Abdelkrim (ICTP)

Session Classification: Physics Plenary (2)
