

Tarkmet Ltd is a modern high-technology company specializing in fine mechanical products. Our staff consists of 16 experts and our turn over is 3 Mio €.

Our main operations are:

- Supply Chain Management
- Fine mechanical machining
- Trading
- After sale service

We also provide laser machining and laser marking services through our network.

Supply Chain Management

Configuration assembly

We provide ready-to-use products including

- planning
- purchasing
- manufacturing
- assembling
- testing
- storage as well as delivery and other logistic services

We offer also network planning, design and virtualising.
Purchases are handled flexibly from the homeland as well as from Europe, India and China.

Other services we provide are:

- precise trial loads
- CE-markings
- different classifications
- hydraulic pressure testing

In addition we perform leak testing as well as infraction and liquid penetrant inspections.

Machining

We machine your parts according to your needs

We manufacture varied and demanding products by machining. We specialize in production of small series but we can also offer large scale series competitively. We also manufacture products where our knowledge in machining is combined with our know how in lasers.

We also specialize in prototypes and special tools for configurations.

Certificates for guaranteed quality

Tarkmet has both quality and environmental certificates. The SFS- certificate stands for both the quality as well as the environmental, system.

We are always at your service. 24 hours a day and 7 days a week, if needed.

Please feel free to contact us at your convenience!

Thank you!

Tarkmet Ltd.
