Type: Oral presentation (by invitation only)

Placement: zoom on the ARC approach Avoid - Reduce - Compensate

Wednesday 1 June 2022 09:15 (20 minutes)

The process of placing the ring has integrated from the beginning the Avoid - Reduce - Compensate approach. The purpose of the presentation is to illustrate concretely how the ARC approach was implemented for the placement :

- How to avoid the main impacts?
- How to reduce the residual impacts?
- How to anticipate potential compensation needs?
