The economic multiplier of the FCC-ee procurement: preliminary results

Tuesday 31 May 2022 09:35 (15 minutes)

The FCC innovation study requires an analysis to better understand the impact that FCC-ee will have on supplier companies, and the mechanisms through which the procurement relationship might generate benefits for the industry. By capitalising on previous research on (HL-)LHC, the presentation provides preliminary results of a new analysis where the economic multiplier of the FCC-ee procurement is calculated, and its drivers unveiled.
