

Partikeldagarna 2021

Monday 22 November 2021

Monday afternoon session 2: Theoretical particle physics - Palmstedt (16:00 - 18:00)

-Conveners: Rikkert Frederix

time	[id] title	presenter
16:00	[64] The six-pion amplitude	HUSEK, Tomáš
16:15	[63] NNLO Positivity Bounds on Chiral Perturbation Theory for a General Number of Flavours	SJÖ, Mattias
16:30	[69] Towards the precise description of Composite Higgs models at colliders	BUARQUE FRANZOSI, Diogo
16:45	[67] Simplifying calculations with chirality-flow	SJÖDAHL, Malin
17:00	[66] Heavy quark momentum diffusion coefficient during the hydrodynamization in heavy-ion collisions	PEURON, Jarkko
17:15	[60] The colour matrix at next-to-leading-colour accuracy	VITOS, Timea
17:30	[70] A reappraisal of top-partner hunting	Dr BANERJEE, Avik
17:45	[73] Svenska fysikersamfundets årsmöte 2022 i Lund	CHRISTIANSEN, Peter
