

# 21st Century Particle Physics: Discussions on Science and Faith

Particle physicists working on CERN's next large particle collider - the Future Circular Collider, and theologians will discuss the common ground between science, philosophy, and religion.

This event is open to all people and is not restricted to any particular faith.

8th February 2022  
19:30 – 21:00  
Liverpool Cathedral

Register at:  
[physicsandfaith.eventbrite.co.uk](https://physicsandfaith.eventbrite.co.uk)

Join us for a panel discussion.

Panel members include:

- **Fr. Andrew Pinsent**, Research Director at the Ian Ramsey Centre for Science and Religion, University of Oxford
- **Professor John Ellis**, CERN and King's College London
- **Professor Elaine Howard Ecklund**, Director of the Religion and Public Life Program, Rice University
- **Revd Canon Dr Mike Kirby**, University of Liverpool
- **Dr Nikos Rompotis**, University of Liverpool
- **Dr Kate Shaw**, University of Sussex

The discussion will be moderated by acclaimed science writer, Dr Michael Brooks.

FCCIS - The Future Circular Collider Innovation Study. This INFRADEV Research and Innovation Action project receives funding from the European Union's H2020 Framework Programme under grant agreement no. 951754.
